

A black and white photograph of a long school hallway with lockers and glass doors. A large, vibrant yellow circular graphic is overlaid on the right side of the image, partially obscuring the hallway and lockers. The text 'BUILDING TOP-CLASS LEARNING ENVIRONMENTS' is written in white, bold, sans-serif capital letters, and 'EDUCATION' is written in yellow, bold, sans-serif capital letters below it.

BUILDING TOP- CLASS LEARNING ENVIRONMENTS

EDUCATION

FIRST CHOICE FOR_

EDUCATION

The education sector has come a long way in recent years. Rather than slapping a few prefabs on the back field, today's forward-thinking education providers are prioritising quality, value for money and longevity in their property maintenance and development plans.

If that's your approach, Cassidy Construction is the right team for your job.

We have decades of experience in building for the education sector, having successfully delivered quality projects at all levels, from early childhood education centres through primary, intermediate and secondary schools to tertiary institutes and specialist learning environments.

Our in-house project managers, quantity surveyors and building information modelling (BIM) technicians specialise in de-risking our clients' projects and helping get the best possible outcome within the available budget, while our self-performing construction teams are passionate about delivering a quality result that will continue to serve generations of future staff and students.

With expertise in seismic strengthening, refurbishments and extensions, as well as complex new multi-storey classroom, admin and specialist blocks, we understand the unique demands of live education environments. We prioritise communication and partnership with all stakeholders and work hard to minimise disruption to school operations and the local community.

How Cassidy Construction adds value

- **A trusted, experienced contractor**
- **Experts in live environments**
- **No disruption to school routines**
- **Self-performing civil, drainage, concrete, carpentry and painting**
- **Next-practice HSE systems**
- **Specialists in technically challenging jobs**
- **Certainty of delivery**
- **Excellence in quality management**
- **Proactive, clear communication**
- **Multiple stakeholder engagement**
- **Experts in value engineering**
- **ECl up-front de-risks your project**
- **Industry leaders in BIM**
- **More sustainable outcomes**
- **Scalable nationwide capacity**
- **Holistic service for the life of your asset**

EDUCATION SECTOR CONSTRUCTION EXPERTS

Our capabilities

- Classroom blocks
- Gymnasiums and halls
- Specialist arts blocks
- Admin blocks
- Relocatable / temporary rooms
- Early childhood education centres
- Swimming schools
- Complex new builds
- Design-and-build
- Refurbishments and extensions
- Maintenance and remedial works
- Seismic strengthening
- Demolition
- Civil enabling earthworks
- Quality fit-outs
- Landscaping

How we add value

The earlier you bring us on board, the more value we add. We're industry leaders in early contractor involvement (ECI), so you can trust us to look at your spec design and advise on constructability, value engineering and efficient methodologies to help you get the most from your budget.

Minimised disruption

We plan our work to minimise our impact on school routines. Tasks that involve noise and vibration are scheduled with consideration for students, staff and surrounding residents. And when we're done, we'll remediate your landscaping and leave your school environment better than ever.

Safety first

We're experts at working safely in live educational environments. We fully isolate our operational zones (building a temporary haul road if needed) and establish safeguards to manage potential risks, such as erecting hoardings around our work areas and providing clear wayfinding and safety signage. Our rigorous ISO 45001 (Health & Safety) and 14001 (Environment) accredited health, safety and environment policies and procedures are embedded in our workplace culture.

Your long-term partner

Strong partnerships have been the foundation of Cassidy Construction's success for more than a quarter century and more than 90 percent of our work now comes from return clients nationwide. We're committed to providing a holistic service throughout the lifecycle of your project – from outset to outcome, and for generations to come.

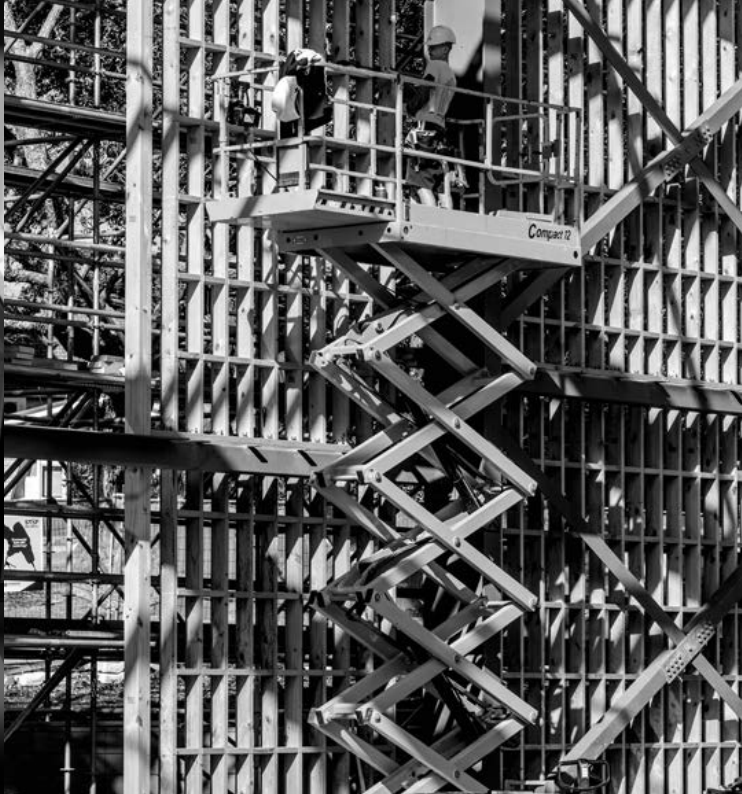

Communication is key

We believe in building solutions-focused teams, and we're skilled in working with multiple stakeholders, communicating frequently and openly to ensure that everyone, from the proprietor to the principal, and from the caretaker to the local community, is on board with supporting the success of your development.

We're lifelong learners too

We welcome feedback as it helps us identify ways to improve. We're passionate about supporting young people into the construction sector through work experience opportunities, trade-based apprenticeships and academic-based cadetships. Talk to us about how we can encourage and inspire the future carpenters, engineers and digital modelling experts in your student population.

CASSIDY
CONSTRUCTION

PUSHING BOUNDARIES

HOW WE DO IT DIFFERENTLY

At Cassidy Construction we believe in pushing boundaries to provide better service to our clients. We continually invest in upskilling and innovation to stay at the forefront of the construction sector.

ECI

Early contractor involvement done right

We work proactively and collaboratively with clients and contractors to streamline methodologies and de-risk projects early in the design and planning process.

BIM

Modelling the future with digital technology

Our building information modelling capability allows us to preview projects virtually, simulate potential impacts and deliver solutions before they become real-life problems.

HSE

Controlling risk through HECA

We are committed to a zero-harm workplace and continually seek ways to safeguard our sites, including implementing programmes such as high energy control assessment (HECA).

QA

Delivering the quality results our clients demand and deserve

We set exceptional standards for the quality of our work and continually monitor our delivery via our ISO 9001 aligned in-house quality management system.

BUILDING POSITIVE CHANGE

We aim to be your First Choice for education projects, not only because you trust us to deliver a quality result, but also because we demonstrate a genuine commitment to contributing to the prosperity of Aotearoa New Zealand and the wellbeing of its people.

We have articulated this commitment to public value in our Building Positive Change strategy, which sets specific goals around environmental, economic and social sustainability.

Please visit our website cassidy.co.nz to find out more about our current initiatives and our progress towards achieving these goals.

SOCIAL & CULTURAL CHANGE

We will be a force for good in our society by:

- embedding diversity, equity and inclusivity within our workplaces
- prioritising the health, safety and wellness of our people
- improving supplier diversity
- engaging with and supporting our communities
- partnering with more Māori and Pasifika-owned businesses

ECONOMIC CHANGE

We will help build skills and careers in the construction sector by:

- funding apprenticeships, scholarships and cadetships
- strengthening training and development pathways for our people
- supporting our subcontractors with skills development
- creating opportunities for local businesses

ENVIRONMENTAL CHANGE

We will reduce the environmental impact of our work by:

- reducing emissions
- diverting site waste from landfill
- engaging subcontractors with similar goals
